SAP PROJECTS & ENGAGEMENTS

SAP System Health Check — APAC Food Delivery & Quick-Commerce Platform

PricewaterhouseCoopers Consulting Services Philippines Co. Ltd.

August 2025 - December 2025

- Supported a SAP system health check engagement for a major food delivery and grocery platform operating across the Asia-Pacific region.
- Served as the sole ABAP Associate supporting **FICO/FI-CA** analysis and development activities.
- Developed RICEF objects, including **reports, enhancements, and form modifications** while performing debugging and root cause analysis.
- Utilized **Core Data Services (CDS) Views** and contributed to **SAP Fiori application development** through Fiori Launchpad configuration.

S/4HANA Greenfield Implementation — Philippine Airline Industry

PricewaterhouseCoopers Consulting Services Philippines Co. Ltd.

January 2026 - Present

- Supported a large-scale SAP S/4HANA greenfield implementation for one of the Philippines' largest airline companies.
- Supported ABAP and Flight Order (FO) workstreams, while gaining exposure to Record-to-Report (RTR), Procure-to-Pay (P2P), and Order-to-Cash (O2C) processes.

- Developed RICEF objects, including **reports, forms, BAdI enhancements and user exits, Data Dictionary objects, table maintenance objects, and interface solutions utilizing SOAP, REST, OData, and file-based integrations**
- Contributed to project documentation, including requirements traceability, blueprint preparation, and process design activities.
- Assisted in selected functional configuration activities within the RTR and FO workstreams.

RESEARCH EXPERIENCE

De La Salle University - Manila

“Pinoybaiting Videos and Filipino Audiences: A Computational Analysis of User Interactions Over Time” Sept. 2023 – July 2024

- Utilized *Bidirectional Encoder Representations from Transformers* (BERT)-based models for sentiment analysis.
- Analyzed trends in 8+ million YouTube comments using Python and relevant libraries.
- Research selected for presentation at the 2024 International Conference on NLP and Information Retrieval.
